

3. Cooperation between health systems

■ Recognition of prescriptions

A prescription issued in another EU country will be more effectively recognised

■ European Reference Networks

They will bring together specialised centres accross Europe helping health experts to disseminate information and expertise

■ Health Technology Assessment

A permanent EU structure of cooperation to help decision-makers to make the right decisions on health investment and spending

■ eHealth

A first step towards "interoperability" of ICT for health at EU level for safety and quality of care, continuity of care, and health research
