# Welcome and Schedule

- Current role - Director of Nursing and Social Care Information, NHS Wales Informatics Service
- Invited to HISINM to discuss the current status of nursing informatics initiatives in Nursing and Midwifery in Wales.
- Present an informal overview 4 UK Home Countries E-Health Partnership
- Explore possibilities for future collaboration

**Ms Beverley Thomas**

- Present and discuss the topic of clinical leadership and the successful implementation of evidence based nursing assessment tools and standardised language with a specific focus on patient safety
- Discuss the use of NNN and Marjorie Gordon's Functional Health Patterns from an international perspective.

**Prof Dickon Weir Hughes**

- Review some examples of work currently underway in nursing informatics in Ireland
- Informal round table presentations
  - PARTNERS COP - Ms Daragh Rodger, ANP
  - Clinical Simulation - Ms Margaret Murphy UCC
  - Standardised Language - Dr Rita Collins UCD
  - Connected Health - Ms Fiona Finn WIT
  - Population Health PHIT - Ms Anne McDonald PHN

## Connected Health

# Strategic Directions

- Some open discussion and engagement of attendees in debate
  - What are we doing
  - Why are we doing this and
  - How can we collectively promote nursing informatics in Ireland?
- Suggestion from last HISINM meeting
  - Create a roadmap for an away day to be arranged late 2012 or early 2013

**Today We Need to Engage in**

- How can HISINM effectively promote nursing informatics, influence change and support best practice in Ireland?
- How can HISINM work with practitioners to use ICT to enhance patient care?
- What other questions do attendees want to ask or debate?

**Key Questions for Consideration**
